Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

1) a MR device wherein neither the pinned nor free layer are laminate structures;

or

2) a MR device wherein one of the pinned or free layer is a laminate structure;

or

3) a MR device wherein both of the pinned or free layers are laminate structures.

2. In addition, this application contains claims directed to the following patentably distinct species of the claimed invention:

A) at least one of the free layer or the pinned layer comprising a Fe-rich alloy (i.e.

the amount of Co and/or Ni in the claimed alloy is ≤ 50 at%); or

B) at least one of the free layer or the pinned layer comprising a Co-rich alloy (i.e.

the amount of Fe and/or Ni in the claimed alloy is ≤ 50 at%); or

C) at least one of the free layer or the pinned layer comprising a Ni-rich alloy (i.e.

the amount of Co and/or Fe in the claimed alloy is ≤ 50 at%); or

The Examiner notes that some claims (e.g. claim 1) are generic to species A – C, in that the claimed language is not restricted to Fe, Co or Ni-rich alloys for either layer.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is

Art Unit: 1773

finally held to be allowable. Currently, claims 23 and 24 are generic. ***This election must include TWO elections, one each from the group of species: 1 – 3 and A – C.*** For example, should applicants desire to prosecute the specie of an MR device wherein neither the pinned layer nor the free layer are laminate structures and wherein at least one of the pinned and free layer are Fe-rich alloys, applicants should elect the following two species: “1-A”.

Applicant is advised that a reply to this requirement must include an identification of all three species that are elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1773

4. No telephone call was made due to the complexity of the restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M Bernatz whose telephone number is (703) 308-1737. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Thibodeau can be reached on (703) 308-2367.
